PRI FFS Flyer 6-2-2014.pdf

Hi Dave,

Attached please find a flyer for the event on 6/2 with target audience on elected officials along the Lower Passaic. Based on your suggestion, the event is now open to the public. The registration will begin at 8 and program at 8:30, which is 30 min later than the previous agenda. Congressman Pascrell has agreed to attend, and we are waiting to hear back from Congressman Penn.

Can you please advise me on names of EPA staff who will be attending this event and who will be presenting the FFS? I would like to include that on the final program. Also, if there is any information that you like to distribute during the event, we will be happy to package them together and distribute them at the registration desk.

May I request an opportunity to discuss arrangement with you via phone next week? Please send me your availabilities.

Thank you.
Meiyin
